

Web Order Inquiry

It is more important than ever to deliver superior customer service at a reduced cost. You need to accommodate your customers, trading partners, sales representatives and employees in today's 24/7 marketplace. Our rapid deployment approach can provide access to your PRMS Order Inquiry over the Internet in a secure, customizable and easy-to-navigate format. Many of our customers have recognized significant benefits and internal cost reductions through delivery of the high level of functionality provided by the eBusiness development tools and infrastructure, such as Java, PHP, IBM WebSphere and open-source portals.

Customers/Trading Partners

Make it simple for your customers to inquire on past or current orders and track the shipping status by linking directly to the carriers' websites.

Sales Representatives

This is a great tool for a travelling sales staff to have access to critical customer information.

Customer Service

Our solution will provide your customer service staff with instant access to order information they need to service your customers.

The Datanational Advantage

Our proven project methodology has been highly successful in our past PRMS eBusiness projects. Our continuous exposure and hands-on approach with mission-critical projects has dictated the development and growth of our company. These factors have directly contributed to our position and attitude towards selfless dedication to our customers and our ability to maintain long-term relationships with them.

Our product specialists have worked with many versions and releases of PRMS for nearly twenty years. Our proven project methodology has been highly successful in our PRMS eBusiness projects. Our experience, a diverse skill set and hands-on approach with PRMS provide us with the ability to successfully deliver projects based on your specific needs.
